With over 24 years experience as a successful freelance film and television professional, Joseph has built a reputation as a talented, experienced and valued core creative team leader. Joseph brings a creative, proficient and pragmatic approach to every team project.

Joseph has forged this reputation by constantly and consistently delivering creative, high quality productions on time and on budget, whilst also fostering the very necessary harmonious, cohesive and collaborative environment pivotal to successful outcomes.

Joseph's reputation, as a hard working, creative and experienced team leader, with an eye for detail and a respect for budget, is why Joseph is viewed as an asset to any Production.

Joseph shows a great understanding of effective communication (messaging) through the filmic process. This skill has been honed by years of study, training and practice. Due to Joseph's previous roles in business and marketing, he also possesses an important understanding of the commercial imperative (a clients perspective) to any production.

Joseph has applied his skill set to a large number of commercial advertising productions, major television productions such as; *Masterchef Australia* & *Iron Chef Australia*. Along with a number of feature films, short films and music video productions.

Official recognition first came with a nomination for Production Design at the AFI's. Then the success of "Jerrycan" (Short Film) winner of the 2008 Cannes Jury Prize and then with "Yardbird" (Short Film) - in competition at the 2012 Cannes film festival. There has also been a number of other short films (which he calls art films or "films for the love of it."), television commercials, feature films and music video clips that have also gained rare invitations to screen at some of the Worlds top film & television festivals such as Berlin, Montreal, Venice, Paris, New York, London, Sydney and Sundance.
